THE MANY-FACET PERSONALITY OF IOANNIS CAPODISTRIAS

OSNOVNA ŠOLA KOPER

KOPER-CAPODISTRIA

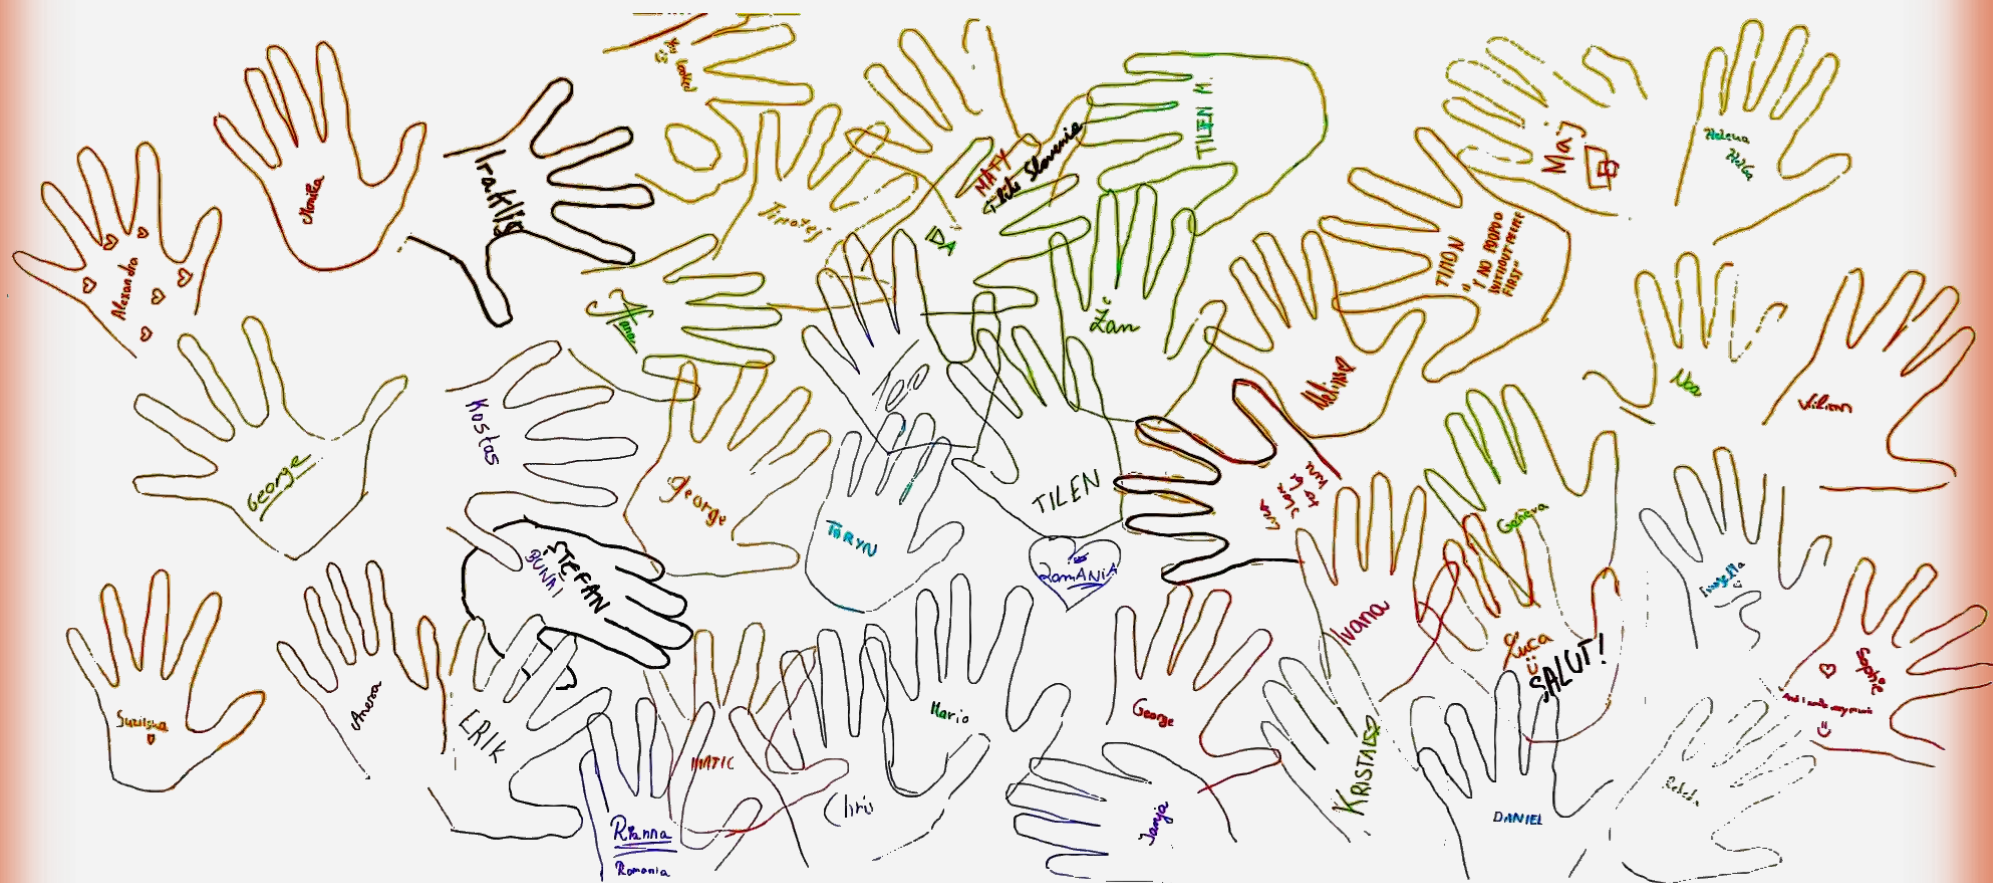

Activity No. C2 "Short-term
exchanges of groups of pupils"
from 18th March to 22nd March
2019

CORFU

NAFPLION

MONDAY

The first day of this exchange started with a greeting of the foreign students. The programme's highlights were a dance by group of folk dancers Val from Primary school Koper and a short play in which all partner countries were introduced. After that we had a tour around Koper. We visited the Ioannis Kapodistrias statue in Ioannis Capodistrias square. When we returned to school, we had a Kahoot quiz about Koper. The day was great except for the rain.

Timon and Maj

TUESDAY

At 8.20 in the morning, we went to Izola and Piran with a bus. When we arrived in Izola, our guide showed us the city and told us many interesting facts about this town. Then the bus took us to Piran where despite the wind we had a great time.

After the tour we returned to Koper and went to visit Pretorska palača palace, where the town hall is located. There we met the current mayor of Koper and he welcomed us.

Soon after that we arrived back to school and we had some nice interactive workshops in groups. The day was lovely.

Kristal and Hana

WEDNESDAY

First we went to Ljubljana, the capital of Slovenia. We visited the Republic's square, the Congress square, the statue of France Prešeren which is the most important Slovenian poet. Then we walked to the triple bridge designed by the Slovenian architect Jože Plečnik and at the end we visited Ljubljana Castle. The next destination the Postojna Cave. We had a typical Istrian lunch before our visit to the cave. We took a cave train to get inside the cave. It was amazing to see the beauty that nature created in this magical underworld. We really enjoyed the trip and all the sights we saw. The experience was great for all of us.

Maj

THURSDAY

In the morning we had an art workshop, related to the content of the project. We explored life in the Venetian republic and in Ljubljana at the time Capodistrias studied in Padua and took part at the congress in Ljubljana. We created a coat of arms, a model of the Kongresni trg square in Ljubljana, drew patterns and clothes in the Biedermeier style. After the snack we went to a guided tour of Trieste. It was very interesting even for students from Koper because we saw some parts of the city and learnt facts about Trieste we didn't know before. We visited the cathedral, many squares, the Roman amphitheatre and fountains. When we arrived at school we had lunch. And then we went to the park. After that we went to the Bowling alley and then we went to a Chinese restaurant. The day was very funny and beautiful.

Monika & Anesa

FRIDAY

In the morning we met in front of our school, after that we visited the Regional archive. At the archive we listened to a presentation about the documents connected with Ioannis Capodistrias' family which are preserved at the archive. It was very interesting seeing all those old handwritten documents. When we came back to the school, we had a presentation about our week. That was a good idea, because we found out how other students felt in Koper. After the snack boys played a match of basketball. Then we had a game of dodge ball all together and we had a good time.

Nives and Ida

WHAT THE PARTICIPANTS SAID

GROUP 1

We liked the tour around Koper. The most beautiful thing was the statue of Ioannis Kapodistrias. We also really liked the church and the small streets, the old buildings and palaces add a lot to the beautiful medieval image.

GROUP 5 TASK 1

We visited Koper. We saw the Carpaccio square, Museum square, Titov trg square, Brolo square, Kapodistrias statue, Župančičeva ulica street, Prešernov trg square. It was cold and it was raining but we enjoyed it. On Titov trg square are many buildings: the Praetorian palace, albergo nuovo, magazzino della munizione - armeria, loggia, cathedral Duomo. On Brolo square is a music school - in the palace Gravisi Barbabianca, palace Brutti, Fontico. On the Martinčev trg square is church of saint Jacob. This church used to be a hospice.

Tuesday

We went to Izola and Piran. We saw a lot of interesting things and medieval buildings. The view of The Adriatic Sea from Izola was really beautiful. The town of Piran was also interesting. The best part was when we had free time and had a coffee and something to eat. The day was beautiful but although it was windy.

GROUP2, day2

First we went to Izola. We didn't like it because of too much wind. Then we went to Piran. Piran was more fun because the wind couldn't get in the narrow streets. After that we went back to Koper. We visited our mayor and he was fun. After all these things we went back to school and were doing a project about the cities that Kapodistrias lived in or are just connected with his life and family.

WHAT THE PARTICIPANTS SAID

GROUP 5

First, we went from the Prešeren square and saw the Vittori palace. Then we went to the Brolo square and then inside the big cathedral. There was no-one inside. Anesa took pictures of literally everything. Then another group came inside and we escaped because we had no teacher with us, and we were afraid of being told off. We went to the sea and then we went to the Triglav cafe. We stayed there for forty minutes. We ate ice cream, toast and drank water and coke. After that we went back to school and had lunch in the school canteen.

We would have liked the tour around Koper if it was not raining. The most beautiful thing was the cathedral. We also really liked drinking hot chocolate at a bar where one of the teachers had invited us and paid for everybody. We saw a lot of old houses and all of them were really near to each other, for example the music school, the Taverna etc. We understood everything and the city is really beautiful.

Group 6

Task 1

Our impression of today was mostly good but we would like to do a tour of Koper with a better weather. We visited Ethnological museum, Kapodistrias statue, Brolo square then we went to palace Brutti.

We were impressed by the Kapodistrias statue. We liked it and it was perfectly clean. We would like to visit again the Brolo square because we weren't able to stay there long enough to see all the palaces. The students that were our guides presented everything very well.

Group Corfu

Throughout our stay in Koper and Slovenia the students were really nice and polite. We did a tour of Koper on the first day. Although it was raining it wasn't really a big problem

The second day we went to Izola and Piran that are two cities near Koper. The visit was really nice and we learned about the cities. Then we went back and ate and returned to our hosts' homes. We have to say that the hosts were very nice to us and we had a lot of fun.

The third day we went to Ljubljana the capital of Slovenia and the biggest cave in Slovenia. It was really nice and we learned about the cave and its history.

The fourth day we visited Trieste and we saw the city and it was very beautiful. We saw a lot of catholic and orthodox churches in Trieste. After that we went back to school and talked about our experiences.

WHAT THE PARTICIPANTS SAID

Dear Mr. Kapodistrias.

We feel honoured that we can travel back in time and meet you face-to-face. We are happy to tell you that people today remember you and your ideas. They are very important for today's Europe.

Dear Mr. Kapodistrias

The Europe now is very different from the one you lived in and the countries have connected into The European Union. We think this is great.

We would say "Hello mister Kapodistrias!

The Europe of today is very good because we are all connected in the European union and this is very good thing. It is sad that some people dislike you and don't believe in your ideas and work. I think that your aim to make Greece a better country is amazing.

Dear Kapodistrias

Europe is now a union of states. There aren't wars in Europe so that is probably something worth praising. What I don't like about Europe now is that the big states are taking over smaller ones. There is a possibility that this may cause disputes or wars. I come from Slovenia, a modern country with schools, modern technology. What I don't like in Slovenia are factories and cars that pollute the environment.

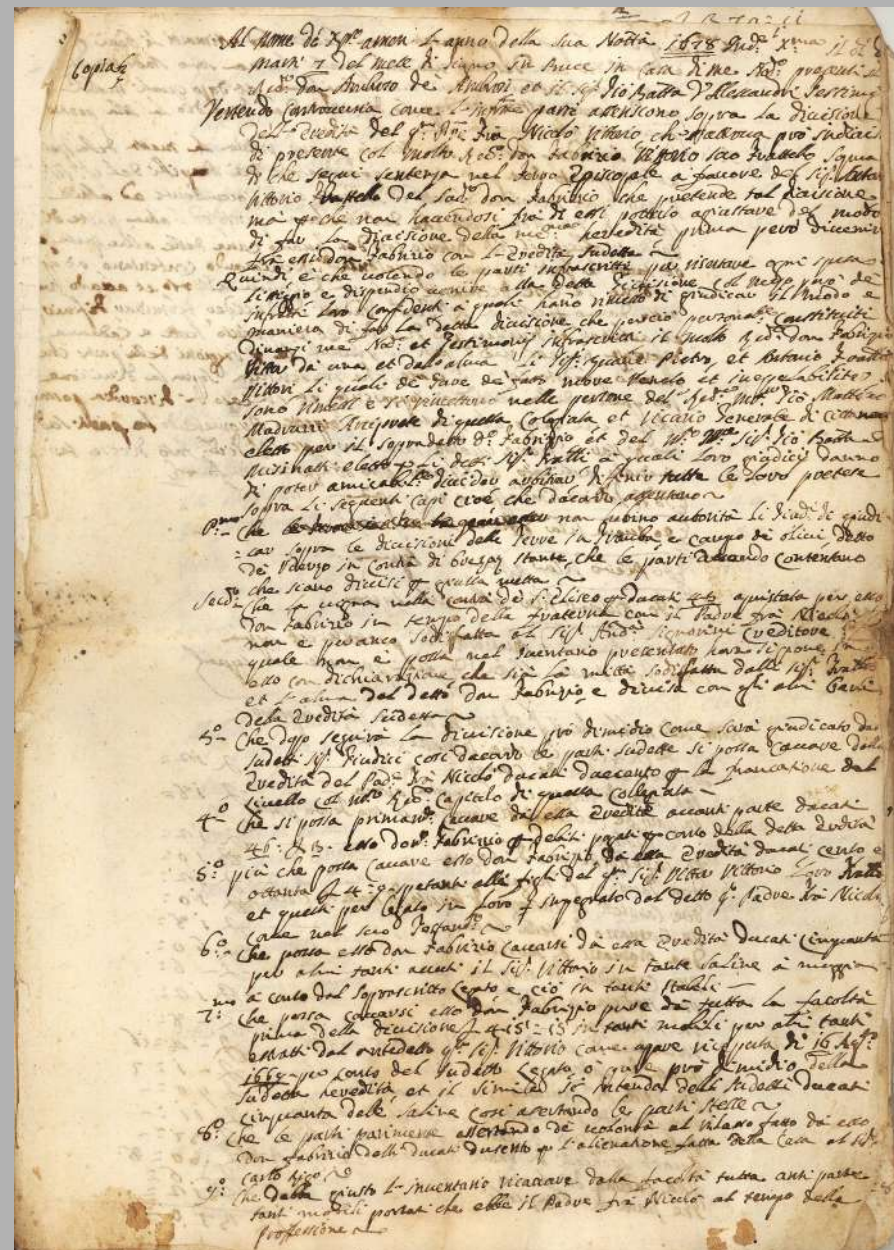

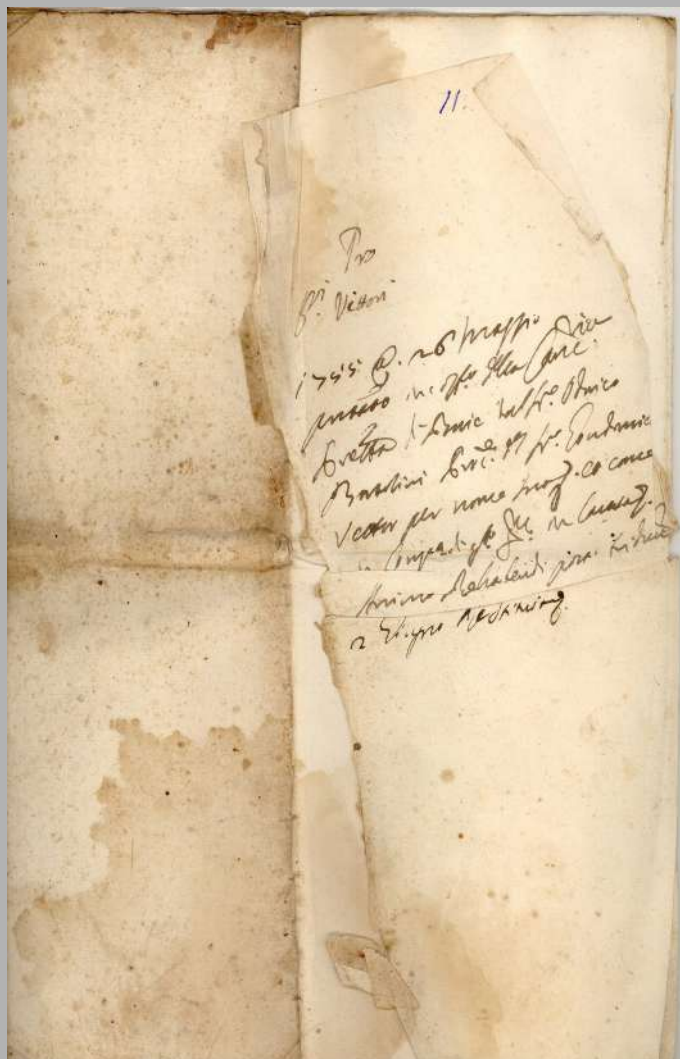

Mario, Stefan, Chris, Ivana, Geneva, Ida

Dear Kapodistrias

I'm sorry to say that but someone is going to murder you so do what you have to do really fast.

VISIT AT ARCHIVE OF KOPER

The archive is situated in Ioannis Capodistrias square. We saw a book of old documents about the Capodistrias Vittori family.

STUDENT'S WORK

Life in the Venetian Republic, in the time Capodistrias studied in Padua
(dress codes, meals and cuisine, entertainment, habits and customs).

STUDENT'S WORK

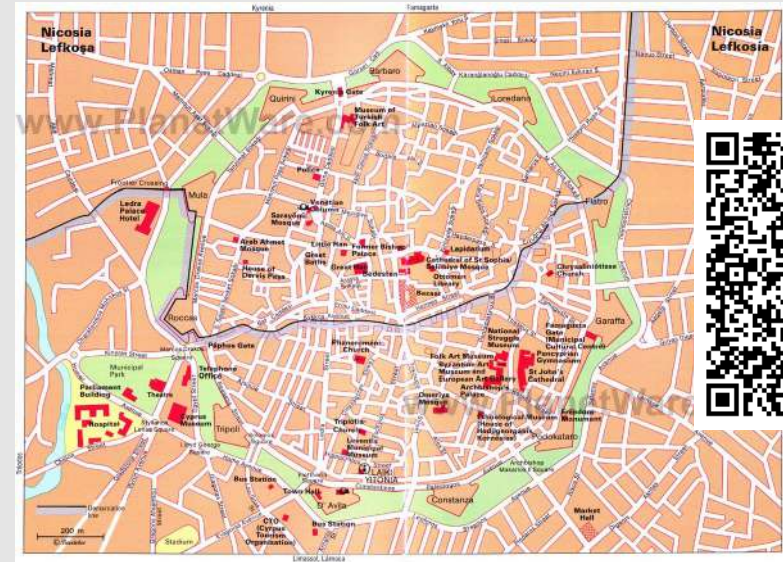

A model of the Congress square in Ljubljana.

Completing the model of Europe with places connected with Capodistrias life.

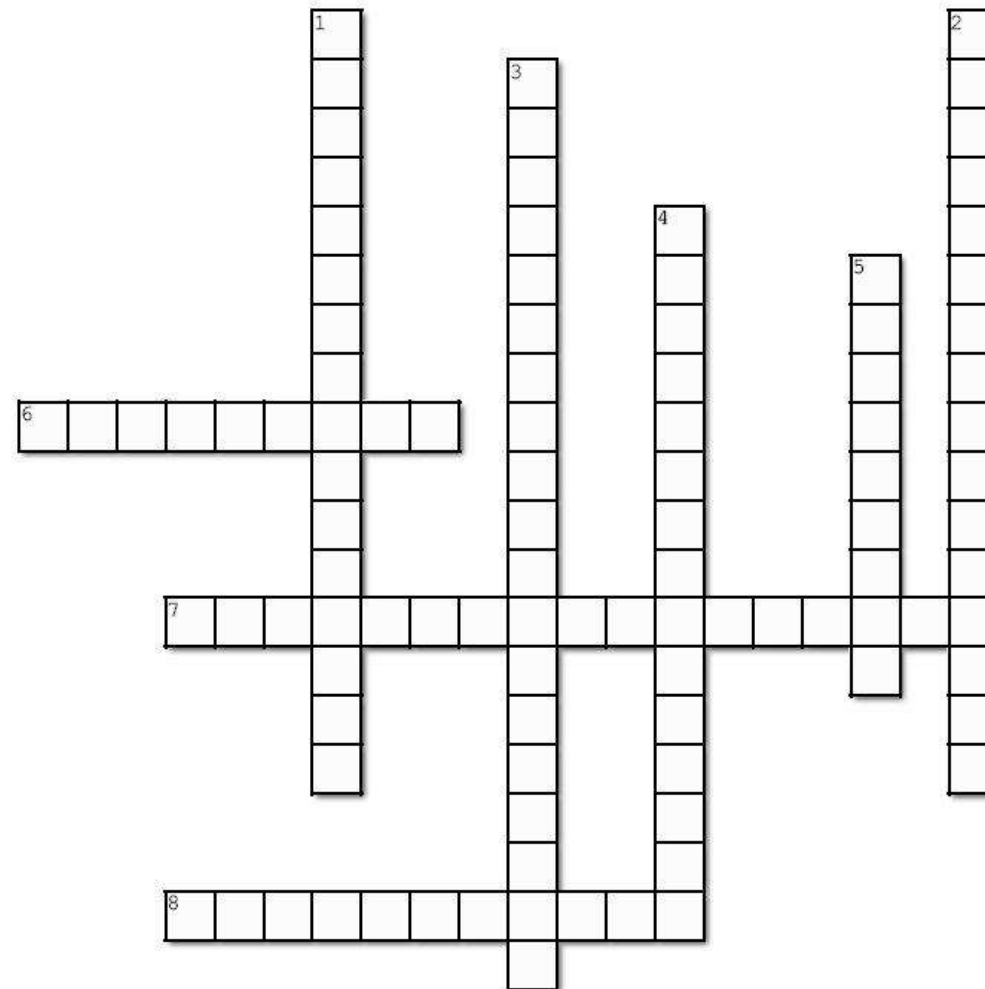

Name: _____

Trip around the Koper
